2001, c.25, Section 128 (1) provides that a local municipality may prohibit and regulate with respect to public nuisances, including matters that, in the opinion of the Council are or could become public nuisances;

AND

WHEREAS the *Municipal Act, 2001*, S.O. 2001, c.25, Section 129 provides that a municipality may pass by-laws to prohibit and regulate with respect to noise, vibration, and, in particular, to prohibit noise unless permission is obtained from the Township and to impose conditions for obtaining, continuing to hold and renewing the permission, including requiring the submission of plans;

AND

WHEREAS people have a right to and should be ensured an environment free from unusual, unnecessary excessive sound or vibration which might degrade the quality and tranquility of their life or cause nuisance;

AND

WHEREAS the Council of the Township of Central Frontenac deems it desirable to regulate noise;

NOW THEREFORE, the Council of the Corporation of the Township of Central Frontenac hereby enacts as follows:

1.

Definitions

In this By-law,

Ambient Sound:

This can include noises such as rain, traffic, crickets, and birds.

By-law Enforcement Officer

means a person designated by Council as responsible for the enforcement of this By-law,

Construction

includes erection, alteration, repair, dismantling, demolition,

structural maintenance, painting, moving, land clearing, earth moving, grading, excavating, the laying of pipe and conduit whether above or below ground level, street and highway building, concreting, equipment installation and alternation and the structural installation of construction components and materials in any form or for any purpose, and includes any work in connection therewith;

Construction Equipment

means any equipment or device designed and intended for use in construction, or material handling, including but not limited to, air compressors, pile drivers, pneumatic or hydraulic tools, bulldozers, tractors, excavators, trenchers, cranes, derricks, loaders, scrapers, pavers, generators, off-highway haulers or trucks, ditchers, compactors and rollers, pumps, concrete mixers, graders, or other material handling equipment;

means the Council of the Corporation of the Township of Central

Frontenac;

means the sound level in decibels obtained when using a sound level

meter with the A-weighting;

means a situation or an impending situation, often dangerous, caused by the forces of nature, an accident, an intentional act or otherwise which arises sudden and calls for prompt action;

Racing of any motorized conveyance other than in a racing event regulated by law.

Operating any combustion engine or pneumatic device without proper exhaust or intake muffling devices meeting specifications of the manufacturer in good working order and in constant operation.

Operating a vehicle or a vehicle with a trailer resulting in banging, clanking, squealing or other like sounds due to improperly secured load or equipment, or inadequate maintenance.

The operation or use of any sound reproduction device originating from or in connection with the operation of any commercial establishment from which sound reproduction device when measured inside any business, or any other type of residence has an equivalent sound level (L_{eq}) greater than 45 dB(A) or the noise from which sound reproduction device has an equivalent sound level (L_{eq}) greater than 55 dB (A) when measured outside any business or dwelling.

[illegible]

Operation of such engine or motor is essential to a basic function of the vehicle or equipment, including but not limited to operation of ready mixed concrete trucks, lift platforms and refuse compactors, or

Weather conditions justify the use of heating or refrigerating

systems powered by the motor or engine for the safety and welfare of the operator, passengers or animals, or the preservation of perishable cargo, and the vehicle is stationary for purposes of delivery or loading; or

Prevailing low temperatures make longer idling periods necessary immediately after starting the motor or engine, or,

The idling is for the purpose of cleaning and flushing the radiator and associated circulation system for seasonal change of anti-freeze, cleaning of the fuel system, carburetor or the like, when such work is performed other than

for profit.

2.3 No person shall discharge into the open air, on any property other than a highway, or repair facility/garage the exhaust of any motor vehicle except through a muffler or other device which effectively prevents loud or explosive noises.

2.4 The use of construction equipment shall not create noise likely to cause a nuisance or disturb the inhabitants or exceed 85 dB(A) when measured at the point of reception;

2.5 The operation of any air conditioner, heat pump, compressor, condenser, chiller, cooling tower or similar device, which emits a noise greater than 50 dB(A) when measured at the point of reception.

2.6 The operation of any exhaust fan, exhaust system, intake fan, generators or similar

device which includes combustion exhaust of a high efficiency furnace, which emits a noise greater than 50 dB(A) when measured at the point of reception.

3. AMBIENT SOUND LEVEL MEASUREMENT

3.1 When a standard sound equivalent level (dB(A)) test cannot be used because ambient noise exceeds the maximum noise limit established for the device, vehicle or equipment to be measured, a differential reading may be used to isolate the level of noise contributed by the device, vehicle or equipment in question as follows:

- noise level reading shall be taken when the device, vehicle or equipment is not in operation;
- noise level reading shall be taken when the device, vehicle or equipment is in operation;

6.1

Application to Council

Upon receipt of a written application for Grant of Exemption to the by-law, the Council may refuse to grant any exemption or may grant the exemption applied for. Any exemption granted shall specify the time-period not more than six months during which it is effective and may contain such terms and conditions as Council determines to be appropriate.

6.2

Details of Application for Exemption

The application shall contain:

- i. the name and address of the applicant;
- ii.

the name and address of the organization represented by the applicant, if applicable;

the source of sound or vibration in respect of which exemption is sought;

a statement of the particular provision or provisions of the by-law from which the exemption is sought;

the date and time of commencement of the event for which the exemption is sought;

the time of conclusion for each day of the event for which the exemption is sought, if applicable;

the duration of the event for which the exemption is sought;

for which the exemption is sought;

rationale for granting an exemption, the name of the contact person or persons who will be supervising the event;
