CHRISTINA CURCIO ph 766-7229

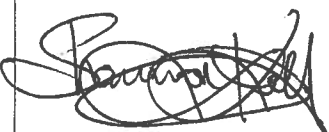

- potential damage to life + property when crash landings occur on people or livestock or buildings
  - there have been crashes already.
- no fire hydrant on this road for protection of fire from crash
- inappropriate ~~use~~ zoning of A/R land, no notice of variance ahead of time to neighbors.
- quiet deadend road now very busy with high increase of traffic noise, + speed, all day from early til after dark! 7 days week-
- unpredictable flight + noise overhead has spooked horses causing damage stress, + makes use of raising + training on property impossible.
- livestock acts prevents this interference overhead.
- how to... reactive impact on land...

Attn: Lake Country Mayor and Council

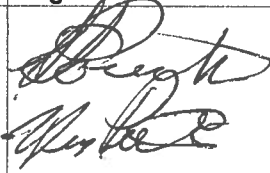

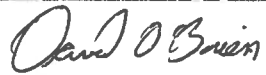

## Petition to End Aeromodelling in Residential Area

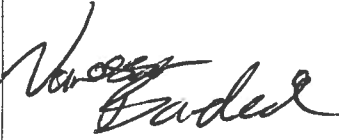

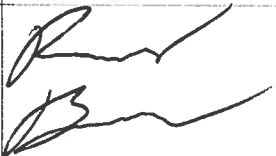

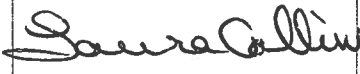

Petition summary and background:	There are several issues that have arisen from the flying of Radio Controlled Aircraft in the field bordered by Lodge Road and the properties at the end of Reiswig Road: the noise generated by these airplanes is very significant, incredibly distracting and severely disturbs the quiet, rest, peace, enjoyment, comfort and convenience of all residents in the surrounding area (especially those in the immediate vicinity); the members also fly the planes over adjoining properties which not only adds to the noise disturbance, it creates a potential for serious injury or damage if one of the planes crash while over one of these properties; animals and livestock are panicking and are spooked by the noisy low-flying planes (which has caused damage for some residents); the dramatically increased traffic on Reiswig Road is a nuisance and is dangerous (given that Reiswig Road is normally a quiet no-thru road with many children and animals living along the road who are used to very low traffic volumes).
Action petitioned for:	We, the undersigned, are concerned citizens (and eligible voters) of Lake Country who urge our leaders to act now to end the aeromodelling (flying of RC aircraft) taking place in the field bordered by Lodge Rd and the properties at the end of Reiswig Road.
