6. Briefings

- a) Robert Clinton** provided the Committee with a briefing on the Lakes and Trails Festival.
- b) Darwyn Sproule** was absent and so could not provide the planned briefing regarding the Ontario Federation of All Terrain Vehicles AGM being held in Ompah, North Frontenac.
- c) Anne Pritchard** provided the Committee with a briefing regarding the CFDC's ongoing programs and activities:
 - Access to Capital is a loan program in place until spring 2018.
 - Regular loan program continues, but they have lent out so much that they must ensure their monthly payments are collected before they can disperse more funds.
 - Have hired Tracey Parker as the new Business Development Officer.
 - Joined Ontario East Economic Development Commission Food Sector Team and took some businesses to the Restaurant Show in Toronto this year. Will be going to the SIAL Canada show in early May.
 - Tech Coaching is in place until next May, and helps business owners leverage technology to promote and further their business.
 - The Annual CFDC AGM (breakfast meeting) is on June 22nd.
 - They are looking for an additional member for the Board of Directors.
 - CFDC has funded a minimum of 20 positions to participate in Kingston Economic Development Corporation's Starter Plus Company. The program provides grants and LEAN training for those looking to start and/or grow their business in Frontenac.

- c) Richard Allen** provided the Committee with a briefing on the Frontenac Trails network, including K&P Trail development.

The committee had a robust discussion during Mr. Allen's presentation, including the following notes:

- Committee members expressed a need for a more fulsome conversation around user types, as many concerns exist around the multi-use nature of the trail. Many uses do not co-exist peacefully. There is also need to clarify allowed uses per section, and the requirement for user permits.
- A couple of members asked Mr. Allen to double-check the 2015 EOTA investment, as they thought it might be slightly different than what was reported.
- The committee suggested that canoe routes are an important part of trails. The Land O' Lakes Tourist Association has created a map of canoe routes. Also, the James Auld Waterway goes east from Frontenac Provincial Park and could use some improvement.
- Mr. Gilbert suggested reviewing the Big Sandy Bay's management model as an example for ongoing management of the K&P Trail. Mr. Clinton suggested Le P'tit Train du Nord and the Blueberry Trail as other potential management models.
- Committee members suggested that the review of the Trails Master Plan should begin in 2018 to allow the current committee and Council to have input.
- Councillors McDougall and Higgins voiced concerns that trail work may begin to monopolize Mr. Allen's time. The committee agreed that the County and the Manager role must be one of coordination to achieve the completion of the K&P Trail. Moving forward, further or additional development of the trail network in Frontenac should be pursued and lead by the Townships.
- There is much to be learned from North Frontenac Township around their successful trails culture.

7. Reports to the Community Development Advisory

- b) 2014-033
Community Development Advisory Committee
Northern Frontenac Cycle Tourism**

This report is for information purposes only.

Mr. Allen attended a meeting on this in Bancroft yesterday, where they discussed barriers to encouraging cycle tourism and received many resources from Ontario By Bike for helping businesses become more bike friendly. Mr. Allen will circulate these resources to committee members by email.

Ontario Highlands Tourism Organization (OHTO) is gathering information about the current state of cycle infrastructure in the region to inform their decisions to formalize a cycle attraction strategy. It is important that Frontenac be represented in this strategy if/when it moves forward.

The committee suggested that local businesses, especially accommodation providers, could benefit from help in understanding how to attract cyclists and become more cyclist friendly. Mr. Allen mentioned that staff will also include this type of education in a program encouraging foot traffic tourism to Wolfe Island ("Ferry by Foot"). It was also suggested that local businesses could join a Kingston-led initiative as a "water station", inviting cyclists into their business to fill up their water bottle for free.

**c) 2017-041
Community Development Advisory Committee
Tourism Marketing Plan**

Moved By: Ms. Kenny
Seconded By: Ms. Hunter

That the Community Development Advisory Committee encourages and enthusiastically supports the development of the tourism marketing plan.

Carried

The committee supported the draft plan as presented, and offered the following feedback:

- To get a sense of impact, local businesses should be engaged in a measurement program to track where their customers are coming from, and how they heard about the opportunity.
- The Back Roads Studio Tour is a great opportunity for photography / video.
- Committee members could provide wildlife / scenery photos.
- The Naturally Rich Frontenacs booklet may be a good source of photography.
- It would be valuable for County Council to have a sense of the realistic tourism marketing workplan for April – October, 2017. That information should be highlighted in the CAO's Report.
- On the Island Lifestyle Adventure, indicate that the ferry is free.
- Could employ a student to survey where ferry riders are coming from in the summer months.
- Regarding nature lovers, we should put informational signs up about local flora and fauna and the Frontenac Arch Biosphere would be a good resource for this.
- In the description of the nature lover, mention of ecotourism opportunities should be included

**d) 2017-042
Community Development Advisory Committee
Community Development Officer Activity Report, February - March**

This report is for information purposes only.

The committee acknowledged the great work that is being done, and would like to get notice about the next brand ambassador networking event ahead of time.

**e) 2017-043
Community Development Advisory Committee
Frontenac Trails Network**

Moved By: Deputy Warden Higgins
Seconded By: Ms. Hunter

Whereas development of the K&P Trail is now nearing completion;

Be It Resolved That County Council continue to support a regional strategy towards trail development for active transportation and recreation by completing the Frontenac portion of the K&P Trail as the connecting spine through Frontenac;

And Further That Council approve the following:

1. **That** the County continue to coordinate with Frontenac Townships, neighbouring municipalities and local trails groups to continue to promote the K&P Trail and Frontenac Trail network as it continues to grow;
2. **That** the County work with neighbouring municipalities and trails groups for the inclusion of the K&P trail as part of the Algonquin to Adirondack trail.
3. **That** the development of a fee structure associated with use of K&P Trail not be pursued at this time;
4. **That** the County finalize the agreement with EOTA, as previously directed.

Carried

**f) 2017-044
Community Development Advisory Committee
Accommodation Study Project Update**

This report is for information purposes only.

Committee members offered a number of corrections and additions for the list of local assets, which staff will send to the Consultants to update the report.

Anne Pritchard suggested that the Business Expansion and Retention Plan completed a number of years ago by Frontenac County may offer useful information for this study.

**g) 2017-045
Community Development Advisory Committee
Federal Budget**

This report is for information purposes only.

8. Communications

~~~~~

**9. Other Business**

Mr. Gilbert provided the committee with an overview of the Frontenac Stewardship Foundation's 2017 Environmental Forum at the Queen's University Biological Station on April 20 and 21. The theme for this fourth annual event is: Confronting Changes in Aquatic Ecosystems of Eastern Ontario. It is hoped that 40-50 people will attend. Participants are invited to stay overnight and the agenda is full with qualified speakers.

Mr. Allen provided the committee with an update on the March 23<sup>rd</sup> Goat Information Sessions hosted by the County. Approximately 230 people attended three sessions, which offered a realistic overview of goat farming in Ontario. The goat milk system can take 20% more milk than it currently does, which indicates that apart from supplying the proposed Feihe plant in Kingston, there is opportunity to expand goat milking operations in Frontenac with market opportunities with other processors.

Report 2017-068

Committee Information Report

To: Chair and Members of the Community Development Advisory Committee

From: Richard Allen, Manager of Economic Development

Date of meeting: May 11, 2017

Re: **Community Development Advisory Committee – Accommodation Study (Project Update)**

Recommendation

This report is for information purposes only.

Staff and consultants will be looking to confirm the methodology and approach to the Accommodation study with the Community Development Advisory Committee in order to proceed with the development of recommendations for the draft report in June.

Background

In 2016 the County of Frontenac launched the “Advancing Economic Development Through Collaboration” strategy in partnership with each of the four townships along with financial support from the Ontario Ministry of Farms, Agriculture and Rural Affairs through the Rural Economic Development (RED) program.

This regional strategy at the County level supports several grassroots economic development initiatives through the new Frontenac brand.

One of the initiatives included as part of this strategy is the completion of an Accommodation Study with the purpose of identifying strategies to sustainably grow the number of accommodation opportunities across Frontenac County.

After completing a competitive RFP process, the submission from MDB Insight received the highest ranking while also having the lowest proposed cost to Frontenac County. In early March, staff met with the consultant team to discuss scope and next steps in the study.

Asset Inventory

The initial stage of the consultant work consisted of the development of an accommodation and tourism inventory of assets – including attractions and features of interest to visitors, as well as identifying the various accommodation operations across Frontenac County. This inventory will be analyzed to identify gaps in accommodation options and assist in the development of recommendations based on the existing conditions in Frontenac.

Stakeholder Engagement

With assistance from Township staff, Councils and committees, Frontenac County staff and consultants hosted four workshops across the County to engage with accommodators and tourism stakeholders. In total, these meetings attracted approximately 44 persons representing hotels, campgrounds, retreats, tourism, economic development and political leadership.

The dates of these workshops were:

- April 19, 7:00pm: Clar- Mill Community Hall, Plevna
- May 1, 1:00pm: Community Hall, Wolfe Island
- May 1, 7:00pm: Sunbury Fire Hall, Sunbury
- May 2, 9:00am: St. Lawrence College Employment Services, Sharbot Lake

In addition, one-on-one interviews have taken place with most of County Council and approximately 35 interviews have taken place with brand ambassadors and accommodators from across the County.

Comments

Project Methodology

After launching the project, staff worked with the consultant team to arrange interviews with County Council members and provided relevant information regarding local assets. Staff requests input from CDAC Members regarding the accuracy of these lists.

Next Steps

The CDAC committee is encouraged to provide feedback at the committee meeting on May 11, 2017 on the project methodology in preparation of the recommendations from the consultant team.

The draft report and recommendations will be brought to the CDAC committee for review, comment and input at the committee meeting scheduled for June 8, 2017.

Sustainability Implications

The Frontenac County Integrated Community Sustainability Plan (ICSP) identifies recreation and leisure as a focus area. This is also reflected in the County Economic Development Charter as a key pillar and strength. As visitors seek adventures and recreational activities in Frontenac, a strong network of accommodation options and partners should be in place to ensure the long term viability of this tourism industry.

Financial Implications

The accommodation study has a budget maximum of \$50,000 and is funded through the Rural Economic Development (RED) program as part of the “Advancing Economic Development in the Frontenacs through Collaboration” project.
